PROFESSIONAL SUMMARY

I turn everyday frustrations into working software. A decoration business drowning in manual bookings became an automated, trackable marketplace. A classroom exposed to proxy attendance became a secure, tamper resistant system built on trust. I build things that solve real problems first and impress second, and I am ready to bring that instinct to a team that ships fast and cares about the details.

TECHNICAL SKILLS

Languages: JavaScript, Dart, Python, C++

Frontend: React, Next.js, Redux, Tailwind CSS, DaisyUI, Framer Motion

Backend: Node.js, Express.js, REST API Design, JWT Authentication

Mobile: Flutter, Bluetooth Low Energy, Biometric Auth

Database & Cloud: MongoDB, MongoDB Atlas, Firebase, Firestore, Supabase, Vercel, Netlify

Tools & Payments: Git, GitHub, Stripe, Postman

Core CS: Data Structures & Algorithms, Competitive Programming, OOP

PROJECTS

StyleDecor — Smart Home & Ceremony Decoration Booking Platform

2025

React, Vite, Node.js, Express, MongoDB, Firebase Auth, JWT, Stripe, Tailwind CSS

Built a full-stack service marketplace with role-based dashboards (User, Decorator, Admin), JWT-protected routes, and Google login via Firebase.

Integrated Stripe payments and a real-time 6-stage service-tracking system on a MongoDB Atlas schema.

github.com/Muazhere5/StyleDecor-Sever

HERO.IO — Productivity App Discovery Platform

2025

React, Vite, Tailwind CSS, DaisyUI, JavaScript

Built a responsive, app-store-style discovery interface with live download/review stats and category filtering across all device sizes.

Live: myapp-909.surge.sh

BLE Attendance & Alumni Hub — Mobile App for Bluetooth Classroom Attendance

2026

Flutter, Firebase, Firestore, flutter_blue_plus, device_info_plus

Developed a dual-purpose mobile app for the ICE department combining a secure BLE-based attendance system with an alumni networking hub.

Prevented proxy attendance using biometric lock, hardware device binding, and RSSI-based proximity detection.

Designed a quota-conscious, offline-first batch write architecture to minimize Firebase costs at scale.

EDUCATION

BSc in Information and Communication Engineering (ICE) | Noakhali Science and Technology University (NSTU)

Session 2020–2021 (Ongoing)

Higher Secondary Certificate (HSC), Science | Chittagong Port College | GPA 5.00/5.00 | 2020

Secondary School Certificate (SSC), Science | Chittagong Port Authority High School | GPA 4.89/5.00 | 2018

CERTIFICATIONS

Complete MERN Stack Development Course, Programming Hero (Instructor: Jhankar Mahabub), 2025

ICT Olympiad Participant

Digital Marketing Fundamentals, Online Certificate Course

EXTRACURRICULAR ACTIVITIES AND INTERESTS

Playing Drums (Trained Professionally), Hill Trekking, Playing Football
